## K1

Barra da tetto per vetture senza Railing (mancorrenti). Profilo rettangolare 30X20 mm. Nella gamma K39 rappresenta il modello base, quello più economico, ma questo non è sinonimo di scarsa qualità. Infatti questo modello soddisfa tutti i requisiti di sicurezza dell'ente certificatore TÜV Rheinland al pari di tutti gli altri modelli di barra. La coppia di barre può sopportare un peso pari a 55 Kg (75 Kg per i veicoli con sistema di fissaggio Fix Point). Il prodotto all'interno della confezione si presenta pre-assemblato. È possibile avere come optional un set di 4 serrature (in dotazione ne vengono date 4 in plastica) e un set di tappetini in gomma inclinati così da creare un piano perfetto nel caso il tetto sia molto curvo. Attenzione, i tappetini inclinati vengono dati come optional perché il loro utilizzo è solo per un mero motivo estetico e non funzionale. Al prodotto va aggiunto l'acquisto del kit di fissaggio per la propria autovettura.

Roof bar for cars without Railing (handrails). Rectangular profile 30X20 mm. In the K39 range it represents the basic model, the cheapest one, but this is not synonymous with poor quality. In fact, this model meets all the safety requirements of the TÜV RHEINLAND certification authority like all the other bar models. The pair of bars can bear a weight of 55 Kg (75 Kg for vehicles with Fix Point fixing system). The product inside the package is pre-assembled. It is possible to have as an option a set of 4 locks (the product is supplied with 4 in plastic) and a set of inclined rubber mats so as to create a perfect top in case the roof is very curved. Attention, the inclined mats are given as optional because their use is only for a mere aesthetic and non-functional reason. To the product must be added the purchase of the fixing kit for your car.

## K1 MEDIUM

Barra da tetto per vetture senza Railing (mancorrenti). Profilo rettangolare 30X20 mm. Nella gamma K39 rappresenta il modello intermedio. Diversamente dalle barre K1 questo prodotto presenta 4 piedi differenti, viene quindi effettuato un connubio tra l'economicità del tubo rettangolare e il design dei piedi dei modelli Pro. Questo modello soddisfa tutti i requisiti di sicurezza dell'ente certificatore TÜV Rheinland al pari di tutti gli altri modelli di barra. La coppia di barre può sopportare un peso pari a 55 Kg (75 Kg per i veicoli con sistema di fissaggio Fix Point). Il prodotto all'interno della confezione si presenta pre-assemblato. È possibile avere come optional un set di 4 serrature (in dotazione ne vengono date 4 in plastica) e un set di tappetini in gomma inclinati così da creare un piano perfetto nel caso il tetto sia molto curvo. Attenzione, i tappetini inclinati vengono dati come optional perché il loro utilizzo è solo per un mero motivo estetico e non funzionale. Al prodotto va aggiunto l'acquisto del kit di fissaggio per la propria autovettura.

Roof bar for cars without Railing (handrails). Rectangular profile 30X20 mm. In the K39 range it represents the intermediate model. Unlike the K1 bars, this product has 4 different feet, so a combination of the cost-effectiveness of the rectangular tube and the design of the feet of the Pro models is made. This model meets all the safety requirements of the TÜV RHEINLAND certification authority like everyone else the other bar models. The pair of bars can bear a weight of 55 Kg (75 Kg for vehicles with Fix Point fixing system). The product inside the package is pre-assembled. It is possible to have as an option a set of 4 locks (the product is supplied with 4 in plastic) and a set of inclined rubber mats so as to create a perfect top in case the roof is very curved. ## K1 PRO

Barra da tetto per vetture senza Railing (mancorrenti). Profilo ovale 45X21 mm. Nella gamma K39 rappresenta il modello lusso. Profilo ovale e design dei piedi elegante e armonioso. Questo modello soddisfa tutti i requisiti di sicurezza dell'ente certificatore TÜV Rheinland. La coppia di barre può sopportare un peso pari a 55 Kg (75 Kg per i veicoli con sistema di fissaggio Fix Point). Il prodotto all'interno della confezione si presenta pre-assemblato. È possibile avere come optional un set di 4 serrature (in dotazione ne vengono date 4 in plastica) e un set di tappetini in gomma inclinati così da creare un piano perfetto nel caso il tetto sia molto curvo. ## K1 PRO ALU

Barra da tetto per vetture senza Railing (mancorrenti). Profilo ovale 45X28 mm. Nella gamma K39 rappresenta il modello top. Profilo ovale in alluminio che rende le barre più sportive ed accattivanti. Il design dei piedi completa l'eleganza di queste barre. Il prodotto soddisfa tutti i requisiti di sicurezza dell'ente certificatore TÜV Rheinland. La coppia di barre può sopportare un peso pari a 55 Kg (75 Kg per i veicoli con sistema di fissaggio Fix Point). Il prodotto all'interno della confezione si presenta pre-assemblato. È possibile avere come optional un set di 4 serrature (in dotazione ne vengono date 4 in plastica) e un set di tappetini in gomma inclinati così da creare un piano perfetto nel caso il tetto sia molto curvo. Attenzione, i tappetini inclinati vengono dati come optional perchè il loro utilizzo è solo per un mero motivo estetico e non funzionale. Al prodotto va aggiunto l'acquisto del kit di fissaggio per la propria autovettura.

Roof bar for cars without Railing (handrails). Oval profile 45X28 mm. In the K39 range it represents the top model. Oval aluminum profile that makes the bars more sporty and appealing, the design of the feet completes the elegance of these bars. The product meets all the safety requirements of the TÜV RHEINLAND certification body. The pair of bars can bear a weight of 55 Kg (75 Kg for vehicles with Fix Point fixing system). The product inside the package is pre-assembled. ## RAPID

Barra da tetto per vetture con Railing aperti (mancorrenti). Profilo rettangolare in alluminio 32x22mm. Barra da primo prezzo ma non per questo scarsa. Oltre ad essere in conformità con DIN 75302, infatti, risalta all'occhio vista la sua estetica elegante dato il materiale in cui viene fabbricata. Prodotto molto interessante perché telescopico e quindi facilmente riponibile dopo il suo utilizzo. Inoltre più barre rapid se messe longitudinalmente possono creare un piano d'appoggio, tipo bagagliera, ottimo per chi vuole risparmiare. La coppia di barre è adattabile ad ogni larghezza di tetto. La portata massima varia dai 60 ai 90kg, a seconda dell'autovettura.

Roof bar for cars with open railing (handrails). Rectangular aluminum profile 32x22mm. first price bar but not for this reason scarce. In addition to being in compliance with DIN 75302, in fact, it stands out due to its elegant appearance given the material in which it is manufactured. Very interesting product because telescopic and therefore easily storable after its use. Moreover more rapid bars if placed longitudinally can create a support surface, type luggage rack, excellent for those who want to save money. The pair of bars is adaptable to any roof width. The maximum capacity varies from 60 to 90kg, depending on the vehicle.

## SAGITTAR

Portabici da tetto, top di gamma. Totalmente assemblato. Il braccio estremamente robusto e dal disegno mosso, termina con una morsa molto resistente foderata all'interno di gomma così da non rovinare il telaio della vostra bicicletta. Il portabicicletta gode di due serrature. Una per assicurare il fissaggio dello stesso alle barre da tetto, l'altra per assicurare la chiusura dei bracci che vanno a serrare il telaio. Prodotto dal design molto accattivante, offre un rapporto qualità prezzo invidiabile.

Roof rack, top of the range. Totally assembled. The arm is extremely robust and has a rough design, ending with a very strong vice lined with rubber so as not to damage the frame of your bicycle. The bicycle carrier has two locks. One to ensure that it is fixed to the roof bars, the other to secure the arms that tighten the frame. Product with a very attractive design, it offers an enviable value for money.

## TRIVOR 5 SLIDE

Pratico e leggerissimo modulo portasci in alluminio. Questo modello a differenza dell' "Everest" è dotato di un sistema a slitta che facilita le operazioni di carico e di scarico degli sci, infatti una volta montato sulle barre, si può estrarre il modulo fino all'esterno del tetto della vettura. Il prodotto è adatto al trasporto di cinque paia di sci (anche carving) o di quattro tavole da snowboard.

Il portasci viene venduto con le classiche viti a "T" le quali scorrono all'interno della barra di alluminio precedentemente montata sul tetto della vettura.

A parte, come optional, viene venduto il kit per fissaggio su barre senza canalina ovvero quelle in ferro o telescopiche in alluminio.

Practical and very light aluminum ski rack module. This model unlike the "Everest" is equipped with a sled system that facilitates the loading and unloading of the skis, in fact once mounted on the bars, the module can be extracted up to the outside of the car roof. The product is suitable for transporting five pairs of skis (also carving) or four snowboards.

The ski rack is sold with the classic "T" screws which slide inside the aluminum bar previously mounted on the car roof.

As an option, the kit for fixing on bars without duct, or those in iron or telescopic in aluminum, is sold separately.
